ONCE UPON A TIME IN MONTREAL

Designed by Albert E Westover, the American architect, the renowned Imperial Cinema opened its doors on April 25, 1913. The frescoes above the lobby are the work of William Eckhart while Tognarelli and Voight were responsible for the decoration. The Province of Quebec's Ministry of Culture and Communications officially recognized the Imperial Cinema as a historical monument in 2001. A major renovation project

was carried out from 2002 to 2004 to restore the building to its former glory. Heritage Montreal subsequently awarded its Orange Prize to the site, thereby recognizing its extraordinary restoration.

THE PROJECT

BUILDING TOMORROW'S URBAN ENVIRONMENT

We believe that it is possible to thrive in one's living space while remaining connected to the community.

With creative and intelligent use of our space and through the application of our design knowledge to adapt to new urban living concepts, we are adding to the neighbourhood's potential to enhance the quality of life and to help reduce our carbon footprints for the city of tomorrow.

The Imperia project's concept consists of a spectacular, boldly designed 22-storey multipurpose building. It will include 221 housing units from the 3th to the 22th floor. A gourmet restaurant, a yoga room and a fitness room complete the amenities distributed from the second to the seventh floor. A splendid urban chalet with a breathtaking view of the mountain, of the downtown core and of the *Quartier des Spectacles* will be housed on the 21st and 22nd floors. A rooftop terrace with custom-built furniture and a splendid spa are some of the elements to be found in this great relaxation and social living area in the sky.

REPRESENTED BY

15 years ago, Patrice Groleau and Debby Doktorczyk recognized a lack of real estate agencies in Montreal that specialized in marketing condo projects in collaboration with developers. From the very beginning, McGill Real Estate was a success, forging strong ties with many of the major project developers in Montreal. McGill Real Estate's expertise goes beyond sales offering a turnkey service to developers including market analysis, feasibility studies, profitability projections, unit mix recommendations, accurate pricing of units as well as branding and a media plan.

Today, the Agency represents 25% of the large-scale real estate projects in the Greater Montreal region with a track record of +10,000 condos, +4 Billion dollars.
